

City of Salinas

Capital Improvement Program

FY 2008 - 2014

MEMORANDUM

DATE: May 23, 2008

TO: Mayor and City Council

FROM: Dave Mora, City Manager

SUBJECT: CAPITAL IMPROVEMENT PROGRAM

The Capital Improvement Program (CIP) for the City of Salinas details the capital investments required by the community to maintain and enhance our residents' quality of life. Given the significant costs associated with capital investments, the CIP is a multi-year document. The CIP is updated annually with major revisions occurring every two years. Major revisions to the CIP were made this year for FY 2008-09 through FY 2013-14.

Potential investments of \$364,591,800 are identified for the six (6) year period from July 1, 2008, to June 30, 2014. The required investments range from deferred maintenance needs of existing facilities (e.g. fire station repairs) to the construction of long overdue new and expanded facilities (e.g. a new police facility and the expansion of Chavez Library) necessary to continue providing basic services to the residents of Salinas.

Each of the six (6) years in the CIP lists critical investments. The FY 2008-09 and FY 2009-10 recommendations are balanced to revenues. The CIP projects recommended for consideration and approval by the City Council are funded from a variety of sources, including very modest General Fund investments. Due to the current economic downturn (aka, recession) and the requirement to balance the two-year General Fund Operating Budget, almost \$2,700,000 of capital projects have been reduced or cancelled. A list of those projects is attached.

An additional significant funding source in the CIP is Measure V with the appropriation of funds available because of carryover budget savings (vacant positions) and the receipt of another "installment" of the multi-year Federal Gang Task Force funding request.

FY 2008-09

The FY 2008-09 CIP details a total investment of \$20,993,400. The General Fund portion of the recommended total is \$1,715,000. The Measure V recommended total is \$1,875,000. The balance of the recommendations (\$17,403,400) is funded by development fees, approved state and federal grants, and City enterprise funds, all of which require those revenues to be used for the specific purposes listed in the recommended CIP. For instance, the \$4,139,500 in recommended TFO (Traffic Fee Ordinance) projects may only be used for TFO projects. TFO fees are paid by developers for specific projects required to mitigate the impacts of development. Similarly, Redevelopment Agency funds may only be used in the Redevelopment areas from which the funds are collected.

FY 2009-10

The FY 2009-10 CIP details a total investment of \$14,471,200. This total includes a General Fund investment of \$1,341,000 and a Measure V investment of \$128,000. The balance of the recommendations (\$13,002,200) is funded by development fees, approved state and federal grants, and City enterprise funds, all of which require those revenues to be used for the specific purposes listed in the recommended CIP.

Future Investment Needs

The third through sixth years of the CIP list are best described as a list of community needs without any guaranteed source of funding. For instance, the FY 2010-11 General Fund projects total \$7,488,600. Current policy mandating the use of prior year General Fund savings may provide approximately \$2,000,000 in available funds, approximately thirty (30%) percent of the funds required.

Funding

The funding sources other than the General Fund detailed in the CIP will allow the City to make progress in the rehabilitation and development of infrastructure financed by new development. Developer-paid, fee revenues in the amount of \$9,504,800 will be used for sewer, park, library and traffic improvement projects in FY 2008-09 and FY 2009-10.

A combination of various resources, including Measure V and State Gas Tax, will be made during the next two (2) years in sidewalk maintenance, tree replacement, and street repair. Significant investments began in FY 2006-07 and FY 2007-08. Significant investments will continue through the recommended budget two (2) year cycle. Sidewalk and tree repair projects total \$1,205,000; street median landscape repairs \$200,000; street rehabilitation \$5,708,700. An additional \$10,599,500 will be invested in City streets during the same two (2) years using City Traffic Fee Ordinance revenues. Although the above listed investments are significant, these amounts are not sufficient to maintain and rehabilitate City streets and roads to the levels required and provide evidence of the significant expense associated with basic street improvements.

Future Growth Area

Portions of the recommended CIP include improvements in the City's Future Growth Area. The City's annexation of the 2002 General Plan approved Future Growth Area has been approved and staff is now working with property owners / developers to specifically define the area's development. Construction of a substantial portion of the required infrastructure improvements in the Future Growth Area will be a specific condition of development in that area. The City's policy of development conditioning has improved over the years so that necessary facilities including a new library, new fire stations, parks, and similar improvements will be provided by developers as mitigation to impacts associated with the new development. There will be detailed discussion of these improvements as the Specific Plans for the Future Growth Area are reviewed and eventually

approved by the Traffic and Transportation Commission, the Planning Commission and the City Council.

CONCLUSION

The six (6) year Capital Improvement Program provides a snapshot of community needs. The CIP does not provide a guarantee that all projects will be accomplished. The CIP should be reviewed with prioritization in mind in order to establish a strategy to secure funding for the priority projects.

With the passage of Measure V, the City's General Fund operating budget is balanced in terms of basic services for the next two years. Measure V was approved and has been used for the restoration of basic services. The long-term service and economic development needs of the Salinas community must also be assessed from the perspective of required capital investments. The multi-year CIP provides an opportunity to do so and will continue to be a priority.

The document presented to the City Council is the work of all City departments. However, without the work of City Finance Department staff, especially Beth Mariano, Miguel Gutierrez and Tom Kever, the CIP would not exist. Their contributions require this separate recognition.

The City Council is asked to consider and approve a CIP work program for FY 2008-09 during the budget review scheduled for May 27, 2008. Staff looks forward to working with the community and Council in this review.

Respectfully submitted,

DAVE MORA
City Manager

CAPITAL IMPROVEMENT PROJECT

Project: PCs & Networking

Department: Administration

Project Number: 9102

Project Description and Location:

This project provides for the PC Service Project including computer equipment and software. Hewlett Packard (HP) will not maintain the City's Prime computer hardware beginning in 2011. Planning for the replacement of the City's computer systems should begin in FY 2009-10. Computer systems include: Finance & Accounting, Payroll, Budget, Personnel, Geographic Database, Police and Fire systems.

Completion Schedule:

| | |
|------------------------|-------------|
| Start Date | 01 JUL 2000 |
| Completion Date | 30 JUN 2014 |

TOTAL FUNDING

Fiscal Impact:

PC replacement is phased at \$100,000 per year (10 year replacement schedule). The cost of replacing the City's computer systems (hardware, software and conversion/consulting) will exceed \$2.5 million. Prior year appropriation of \$300,000 provides for MS Windows license upgrade and \$350,000 to replace servers that will accommodate the software upgrades.

CAPITAL IMPROVEMENT PROJECT

Project: Public Safety Radio System

Department: Administration

Project Number: 9344

Project Description and Location:

Project provides for the replacement of the county-wide radio communications system. This next generation (NGEN) radio system will cost an estimated \$22 million. Federal Communication Commission (FCC) regulations require the project be completed by January 2011. The cost of the project is to be shared by agencies county-wide based upon the agreed cost allocation (number of mobile/portable radio equipment used by each agency). The City's share is about 18%

CAPITAL IMPROVEMENT PROJECT

Project: New Police Facility

Department: Police

Project Number: 9904

Project Description and Location:

The Public Safety Building on Lincoln Avenue is 25,500 sq. ft. and the lot is 1.2 acres. This project provides for a new facility at 60,000 sq. ft. on a 2.0 acre parcel. Construction of the new police facility would require bond financing supported by a dedicated revenue source. Land appropriation of \$550,000 provided for the purchase of the Armory Building for the future police facility.

CAPITAL IMPROVEMENT PROJECT

Project: Emergency Operations Center

Department: Fire

Project Number: 9132

Project Description and Location:

Project provides funds to pay for the City's participation in a countywide effort to develop a Local Hazard Mitigation Plan as required by the California State Department of Emergency Services. The plan is completed, however, the City is in need of writing additional plans for specific complexes and hazards, i.e., SVMH, NMC, Railroad, Ammonia Facilities, Earthquakes, Flooding, etc.

CAPITAL IMPROVEMENT PROJECT

Project: Fire Hose & Nozzle Replacement

Department: Fire

Project Number: 9384

Project Description and Location:

Project will replace cotton jacketed fire hose currently in service with new synthetic fire hose. Project will also replace older model nozzles with new firefighting nozzles. The fire department's 5" hose is nearing its life expectancy (10 years). The department is proposing \$30,000.00 over three years to replace all 5" hose. Replacement over three years will eliminate a one-time purchase of \$90,000.00 to replace all 5" hose.

CAPITAL IMPROVEMENT PROJECT

Project: Fire Hydrant Repairs

Department: Fire

Project Number: 9411

Project Description and Location:

Project provides for repairs of fire hydrants in the Alco Water service areas within the City of Salinas. Project also provides for replacement of existing old style hydrants in Alco Water service areas within the City of Salinas with the current city fire hydrant specified.

| Completion Schedule: | Start Date | Completion Date |
|-----------------------------|-------------------|------------------------|
| | 31 DEC 2005 | 30 JUN 2014 |

Fiscal Impact: The City's franchise agreement with Alco Water does not provide for repairs or replacement of hydrants by Alco Water. Continued general fund allocations are necessary to maintain adequate firefighting water supplies in the Alco Water service areas of the City.

CAPITAL IMPROVEMENT PROJECT

Project: Freight Terminal Rehab

Department: Development & Engineering

Project Number: 9399

Estimated Annual Operating Budget Cost/Savings

Personnel Equipment/Supplies Maintenance Other

Estimated Annual Costs < Savings > :
Date Costs < Savings > Will Occur:

Project Description and Location:

Planning and construction of improvements to the Freight Terminal Building at the Salinas Intermodal Transportation Center. First phase of this project is lowering of existing building to grade level to improve pedestrian access compliant with ADA. Other improvements will prepare existing building for re-use. These improvements include seismic retrofit, asbestos and lead paint abatement and re-roofing.

| Completion Date: | 31 DEC 2009 |
|------------------|-------------|
| Start Date: | 01 JUL 2006 |

Fiscal Impact:

CDBG funds have been secured for preliminary engineering and design for lowering the building to grade level. Federal TEA funds have been secured to supplement preliminary engineering, design and construction costs for other improvements. This project will be phased since more funds will be needed to complete all desired improvements.

CAPITAL IMPROVEMENT PROJECT

Project: Davis (Blanco to Reservation)

Department: Development & Engineering

Project Number: 9923

Project Description and Location:

Design and construction of capacity improvements to Davis Road (Blanco Road to Reservation Road) and Reservation Road (Davis Road to Intergarrison Road). The Project provides for the widening of Davis Road and Reservation Road from two lanes to four lanes and bike lanes. The Project addresses deficiencies along the corridor that links Salinas to the Monterey Peninsula. The Salinas Traffic Improvement Program identifies this need under Project 41.

Completion Date:
Start Date 30 JUN 2012

卷之三

CAPITAL IMPROVEMENT PROJECT

Project: Emergency Generators

Department: Facilities Maintenance

Project Number: 9466

Project Description and Location:

During the October 1989 earthquake certain operations in City Hall and the Public Safety Building were curtailed because the existing emergency generator could not provide the electric power needed by both buildings. In 1990 an electrical consultant was engaged to provide an analysis of our needs. This project provides funding for emergency generators at the City Hall/Public Safety building and for the Corporation Yard in order to maintain radio communication.

Completion Date:
Completion Date
30 JUN 2013

Completion Schedule:
Start Date
01 JUL 2008

Estimated Annual Operating Budget Cost/Savings

Personnel Equipment/Supplies Maintenance Other

Estimated Annual Costs < Savings > :

Date Costs < Savings > Will Occur:

Fiscal Impact:

The cost for this project includes engineering, inspections, and installation labor for additional circuits in the existing Emergency Power System. Homeland security grants are not available for this project. FY 2008-09 provides for the purchase of a portable emergency generator.

CAPITAL IMPROVEMENT PROJECT

Project: S Main & Blanco Intersection

Department: Street Maintenance

Project Number: 9724

Project Description and Location:

Modify median island and/or curb, gutter, and sidewalk along southerly curb line (west of S. Main St.) to provide dual left & dedicated right turn pursuant to the Salinas Traffic Monitoring Program, and modification to the existing traffic signal system. This intersection currently operates at LOS D/E.

CAPITAL IMPROVEMENT PROJECT

Project: Martella/Preston Sts. A.D.

Department: Street Maintenance

Project Number: 9867

Project Description and Location:

The City has an ongoing program to resurface/reconstruct City streets. The streets are selected from a computerized Pavement Management System. The resurfacing of streets prolongs the life of the streets by decreasing deterioration; however, Martella and Preston Streets in this case are beyond resurfacing. Therefore, a complete reconstruction of these streets is warranted.

CAPITAL IMPROVEMENT PROJECT

Project: Williams/Laurel Intersection

Department: Street Maintenance

Project Number: 9910

Project Description and Location:

The mitigation monitoring program for the William Ranch area requires that the developer improve this intersection. In August 2000, DKS prepared a study determining the best improvements needed for this intersection. The improvements include the installation of median islands to restrict traffic movements that experience greatest delay and have the highest safety concerns.

| | |
|-----------------------|---|
| Fiscal Impact: | Once the signals are installed, the City will be responsible to maintain the facilities. Currently it cost the City approximately \$1,500 per year per intersection to maintain a traffic signal system. This includes regular maintenance and electric power. A Fire Opticom system is included in each traffic signal installation. |

CAPITAL IMPROVEMENT PROJECT

Project: Rec Facility @ Muni Pool

Department: Recreation - Parks

Project Number: 9535

Project Description and Location:

Project provides for the conversion of old municipal pool facility into a multi-use recreational facility. Work includes leveling pool site, installing Portland Cement Concrete base, multi-game court flooring and furnishing all the necessary accessories for the multi-game court. Also modify existing facility to meet ADA requirements and rewire existing lighting layout.

CAPITAL IMPROVEMENT PROJECT

Project: New Municipal Pool

Department: Recreation - Parks

Project Number: 9761

Project Description and Location:

Since 2000, the City has considered several conceptual alternatives to replace its 50-year old municipal pool facility with a new Aquatic Center at Sherwood Park. On April 11, 2006, City Council approved a revised single pool design. During April 2008, Council awarded the pool construction bid and allocated \$200,000 of Recreation Fees. Block grant funds will be required to complete the project.

CAPITAL IMPROVEMENT PROJECT

Project: Carr Lake Development

Department: Recreation - Parks

Project Number: 9902

Project Description and Location:

The acquisition and development of Carr Lake (450 acres) is identified in the General Plan. Carr Lake basin (377 acres) is part of the regional drainage system and must generally remain open space. The developable (73 acres) could be acquired and would preserve the option to develop this recreation facility. Preliminary planning as to the potential reconfiguration and use of this area must be completed as a prerequisite to any specific plan for the area.

Project: Library Roof Replacement

Department: Library

Project Number: 9636

Project Description and Location:

Replace damaged and old roof at the Cesar Chavez Library. Existing roof dates back to 1979 when the Library was built. Roof is showing its age and has green and moldy areas. The roof needs to be inspected during FY 2007-08 and if possible the replacement would be done in conjunction with Chavez Library expansion. Chavez Library expansion is currently funded at \$1,250,000 (see CIP 9587).

CAPITAL IMPROVEMENT PROJECT

Project: Ind Waste Capacity Study

Department: Industrial Waste

Project Number: 9361

Project Description and Location:

This capacity study by Camp Dresser McKee (CDM) will be completed in 2008 and will provide a conceptual plan for future industrial waste system expansion and upgrade. Includes options for phasing and implementation, as well as order of magnitude cost ranges. Build upon and update previous studies prepared in 2001 and 2004 by CDM for the industrial waste system.

CAPITAL IMPROVEMENT PROJECT

Project: Industrial Waste Line Extend

Department: Industrial Waste

Project Number: 9630

Project Description and Location:

This project is to be completed at the time prospective customers require industrial waste collection service westerly along Abbott Street from Sanborn Road and northerly along Sanborn Road from the RR tracks to Elvée Drive. This capital project constitutes design and construction of industrial sewer lines to extend the system along said reaches.

Project: Santa Rita Storm Channel

Department: NPDES Storm Drain Sewer

Project Number: 9175

Estimated Annual Operating Budget Cost/Savings

Personnel Equipment/Supplies Maintenance Other

Estimated Annual Costs < Savings >:
Date Costs < Savings > Will Occur:

Project Description and Location:

This project provides for the repair of the storm water channel at Santa Rita Park. The storm water channel has been damaged by erosion due to multiple storm events in recent years. The project includes the widening of the concrete portion of the channel and a paved access driveway for maintenance vehicles as well as a re-grading of the channel slopes to include hydro seeding. The total reconstruction includes approximately 1,300 linear feet of the channel.
