

KEY TO MAP

NOTES TO USER

Boundaries of the floodways were computed at cross sections and interpolated between cross sections. The floodways were based on hydraulic considerations with regard to requirements of the Federal Insurance Administration.

This map was prepared to support minimum flood plain management regulations; it may not show all areas subject to flooding in the community or all planimetric features outside special flood hazard areas.

Floodway widths in some areas may be too narrow to show to scale. Refer to Floodway Data Table where floodway width is shown at 1/200 inch.

For adjoining map panels, see separately printed Index To Map Panels.

ELEVATION REFERENCE MARKS

REFERENCE MARK	ELEVATION (FT. NGVD)	DESCRIPTION OF LOCATION
RM3*	99.13	U.S. Coast and Geodetic Survey disk, 2.75 miles north along Main Street from the Southern Pacific Railroad station at Salinas, thence 1.0 mile northeast along San Juan Grade Road, at the junction of a driveway southeast to a frame house, 24 feet southeast of the centerline of the road, 143 feet northeast of the centerline of the driveway, 12 feet north of a 30-inch tree, 4 feet northeast of a wooden fence corner, 4 feet northeast of telephone pole 31, 1.3 feet northwest of a fence, 2.2 feet northeast of a witness post, approximately level with the road, and set in the top of a concrete post projecting 0.2 foot above the ground.
